EDUCATION

University of Texas at Arlington

Arlington, TX

ABOUT ME

I am an organized, efficient and hard working person, and am willing to discover and accept new ideas which can be put into practice effectively. I am a good listener and learner, able to communicate well with a group and on an individual level. I am able to motivate and direct my talents and skills to meet objectives. I bring a structured approach to problem-solving—breaking challenges into manageable segments and analyzing them to uncover effective solutions. I'm passionate about understanding client needs, delivering tailored strategies, and collaborating effectively within teams. My goal is to bridge the gap between technology and business, leveraging my technical background and analytical mindset to drive impactful outcomes for clients.
